BA (HONS) 3D MCP SHOWCASE 2008

3D MCP

BA (HONS) 3D MCP (MATERIALS AND CRITICAL PRACTICE)

This course places the 'designer-maker' firmly at the centre of design production, combining a critical investigative approach with the physical practice of making. The focus is on 'small batch' production and the 'one-off' within design. Students are encouraged to challenge norms and question conventions as a designer-maker through developing a personal approach to researching, experimenting, designing and making in the context of an increasingly complex commodity culture. 2008 is the second graduating cohort of the BA honours in 3D MCP. This year study visits have been to Stockholm Furniture Fair and the Milan International Furniture Fair.

RECENT EVENTS

3D Tate Take Over In February Level 1 students held an event at the Tate Modern where they took over the bridge and invited the public to invent, interact, create 3D landscapes, conquer mazes, construct furniture, customise a new breed of toys and challenge the artist's labour. This project was a collaboration with the Tate Modern Raw Canvas Team.

The Sorrel Foundation: Young Design Programme

Throughout the academic year 3dmcp level 1 students have worked with The Sorrel Foundation's Young Design Programme: a UAL and Sorrel partnership that brings together design teams of students and client teams of school pupils to address a design brief created by pupils concerning their school environment.

Dulwich Festival / Brockwell Lido Level 2 students were involved in the Dulwich Festival when residents Ingrid and Tom Beazley opened their home and gardens to students to exhibit the results of a project entitled "Make it Local". On Mayday 3D MCP students ran workshops and exhibited work at Brockwell Lido as part of the heritage open house weekend.
